JOANNE MITCHELL
ASSISTANT DIRECTOR

FOREWORD

The 1983 Annual Report of Illinois state chartered Credit Unions is published as required by Section 9 of the Act.

The record \$3 Billion mark was broken twice in 1983 by the 891 Illinois state chartered Credit Unions. Shares grew 19.2% to just over \$3 Billion and assets grew 18.4% to \$3.26 Billion. These record levels once again established Illinois Credit Unions among the fastest growing financial institutions in the United States. Their growth also remains well ahead of the growth in total deposits experienced by Banks (8.9%) and Savings and Loans (11.7%).

1983 will be known as the year Illinois Credit Unions not only met the challenges of the changing economy and deregulation but led the way in offering the services Illinois citizens need and desire. Their tremendous growth is positive proof of the vote of confidence shareholders throughout Illinois are giving their Credit Unions. As they continue to meet and anticipate their members' needs, they only ensure for themselves a sound and successful future.

Credit Union Advisory Board

Section 11 of the Illinois Credit Union Act provides for a Board of Credit Union Advisors who shall consult with, advise, and make recommendations to the Governor and to the Director on matters pertaining to credit unions.

The Board consists of 7 persons with credit union experience and are appointed by the Governor. All of the Board's meetings are open to the public. The Chairman, individual Board members or the Department may be contacted by anyone wishing to place an item on the agenda.

The Board has proven to be a valuable and necessary forum for exchanges with the industry.

Financial Review

A review of the charts and figures throughout this 1983 Annual Report will show credit unions experienced a very successful year of growth in an increasingly competitive environment. An improving economy coupled with the increased expansion powers granted credit unions in late 1982 and 1983 contributed to the credit unions breaking the \$3 Billion mark both in shares as well as assets. This growth in dollars also saw a growth in members, reversing the decline experienced in 1982.

Loan demands remained soft the first six months of 1983, but grew so strongly in the last six months, new loans granted in 1983 increased 28.0% and total loans grew 10.3%. Along with this growth came a lower composite delinquency rate, down from 5.8% to 3.5%.

In that the growth of shares outpaced that of loans, the loan to share ratio declined 4.6% to 57.5%. This meant the shares taken in could not be used in lending but had to be placed in investments yielding a lower return. The yield on average loans increased from 13.4% to 13.5%, however the yield on average funds invested declined from 12.5% to 10.0%. This caused a decline in the yield on average assets from 12.5% to 11.8%.

Though the dividend on average shares decreased to 8.2% in 1983, this decrease in the cost of funds was not enough to offset the decline in the yield on average assets. As a result, the net margin decreased to 3.6%, a second year of decline and an indication of the increased competition for members' savings.

	1980	1981	1982	1983
Yield on Average Assets	10.8%	12.5%	12.5%	11.8%
Dividend on Average Shares	7.3	8.4	8.5	8.2
Net Margin	3.5%	4.1%	4.0%	3.6%

Credit unions have provided an attractive alternative to other financial institutions regarding the dividends paid to shareholders. The following graph illustrates the distribution of dividends the 891 credit unions paid to shareholders on common shares.

Of the 891 credit unions, 796 or 89% returned dividends in excess of the 5.50% maximum rate of interest allowed by other financial institutions.

PATTERNS OF SHARE GROWTH

The Table below illustrates the continuing importance of classes of shares and share drafts over the last 5 years. Two columns are provided for both 1982 and 1983, column A for all credit unions and column B with the share deposits of United Airlines Employees Credit Union (of which 95.3% and 90.2% respectively are common shares) deleted.

Share Category	1979	1980	1981	1982 (A)	1982 (B)	1983 (A)	1983 (B)
Common	90.1%	83.5%	76.8%	76.6%	72.5%	75.0%	71.2%
Classes	8.2	14.2	20.0	19.8	23.1	21.1	23.9
Share Drafts	1.7	2.3	3.2	3.6	4.4	3.9	4.9
Total	100%	100%	100%	100%	100%	100%	100%

(A) Shares of all Credit Unions.

(B) Shares with United Airlines Employees Credit Union deleted.

INCOME AND EXPENSE

A tighter squeeze was placed on net earnings as increasing dividend costs took a larger portion of the available income. Though the dividend rate on average shares declined from 8.5% to 8.2%, when applied to a larger share base, the total dividend cost increased from 61.5% to 64.3% of available income.

Income available to cover dividends, expenses and reserving goals did not grow at as fast a rate as expenses. This was due to a soft loan demand at the beginning of 1983 and a greater portion of members' savings placed in investments yielding a lower rate of return than would have been earned had credit unions been able to loan the funds to members.

7.7% of the total income was transferred to the statutory reserves and undivided earnings. This is down from the 10.9% in 1981 and the 10.1% in 1982. With a declining percent of income being transferred to the reserves and undivided earnings, they are declining as a percent of assets. In 1981, total reserves accounted for 7.6% of assets. By 1982 they declined to 7.3% and at 1983 year end they only accounted for 6.6% of assets.

A summary of the major consolidated income and expense allocations is as follows:

INCOME AND EXPENSE

Distribution for Illinois Credit Unions in 1983

LOAN DELINQUENCY

Slowing layoffs, increased call backs, and expansion of industrial activity reflected the improving economy and resulted in a reduced delinquency rate, down from 5.8% to 3.5%. Net charge-offs as a percent of income decreased from 3.1% to 2.9% and the provision for loan loss expense as a percent of gross income decreased from 3.7% to 3.6%. All ratios show improvement.

Real Estate Lending

The Credit Union Act was amended in October 1974 to permit credit unions with assets in excess of \$1.0 million to make loans to members secured by real estate. The following table summarizes this lending activity. (Columns 3-6 are statistics only from credit unions shown in column 2 which reported outstanding real estate loans.)

Year	CU's with Assets of \$1.0 Million or more	CU's Reporting R.E. Loans	Total Real Estate Loans at 12/31 (000's)	% of Loans at 12/31 —	Real Estate Loans Made during year (000's)	% of All Loans Extended	Real Estate Loans as % Of All CU loans
1975	228	7	\$ 588	2.4%	\$ 590	3.5%	.06%
1976	248	11	\$ 18,861	13.0%	\$18,868	16.9%	1.7%
1977	282	21	\$ 43,725	15.3%	\$22,197	11.8%	3.2%
1978	300	21	\$ 65,024	18.1%	\$25,172	10.9%	4.0%
1979	310	23	\$ 66,246	16.1%	\$19,173	8.4%	3.7%
1980	304	25	\$ 72,362	17.9%	\$10,043	5.4%	4.5%
1981	307	28	\$ 79,321	17.9%	\$ 9,740	4.0%	4.8%
1982	332	27	\$ 77,255	17.8%	\$ 5,907	3.0%	4.9%
1983	352	29	\$109,878	22.7%	\$36,133	14.2%	6.3%

Due to a change in reporting forms, the 1980 totals are only for first mortgage loans. Previous year's data includes both first and second mortgage lending.

The lack of widespread real estate lending is suggested by the small number of eligible credit unions making such loans. Approximately 60% of the activity reported was by Construction Equipment Credit Union (formerly Caterpillar Employees), Peoria.

Share Insurance

The Illinois Credit Union Act required all Illinois chartered credit unions to make application for share insurance no later than December 31, 1981 and receive a commitment for share insurance by December 31, 1984.

At year-end 1983 there were 886 insured credit unions of which 820 had share insurance through the National Credit Union Administration (NCUA) and 66 had insurance with the National Deposit Guarantee Corporation (NDGC). The remaining 5 credit unions with total shares of approximately \$1.7 million had requested extensions of time to correct the deficiencies and reapply.
